

The world's favourite lock

Yale[®]

Latching Digital Door Lock

The Yale Latching DDL offers key free access to your home. This DIY product allows for easy installation and can easily replace a knob or lever entrance set. The illuminated keypad is convenient for night time entry, and the voice guide allows for easy programming of up to 25 different user codes.

The world's favourite lock

VARIOUS ACCESS

Two access solutions, PIN code or key for your convenience.

WRONG CODE LOCKOUT

Wrong code lockout after 5 attempts (3 minute lockout).

REVERSIBLE HANDING

Reversible handing for right and left handed applications.

LOCK STATUS

Flashing indicator light to show lock status (selectable).

LOW BATTERY

Low battery warning indicator.

PIN CODE

PIN code management (1 master code, 25 user codes).

WIRELESS INTEGRATION

Can be connected to Z-Wave and Zigbee control systems by using the optional ZWM-1 Z-Wave module* and ZBM-1 Zigbee module. Available features depend on the ability of your control system.

**Communication module sold separately.*
